Engineering Scholarships

From

The Govt of Bom. in Impne

No 9644/492 Dated 30/1/14 Received 6/2/14

Diary No 4484	Enclos	Spare Copies	Serial No 22

BRIEF ABSTRACT OF LETTER.

With reference to the Govt Engineering Scholarships recently sanctioned by Govt tenable in the Engineering College at Poona, states that no Students from Impne can get admission into the Poona College this year and Requests orders as to whether the Scholarships may be granted to Students that are already studying in the College

NOTES AND ORDERS

Submitted for orders with References. The Govt have taken action for getting admission to Impne Students in the Poona Engineering College, this year, through the Residency Dept but no Reply has been received.

2 The Chief Engineer is of opinion that

8 From DO. correspondence with the Reg it is seen that it is not possible to admit any new students this year It is understood that the Bombay Govt have under consideration the question of admissions in future
9 In the circumstances it is a question whether the additional scholarships should ~~not~~ be granted to the ~~existing~~ students who have already joined the College of their own accord or whether the scholarships may be saved & their grant considered

(21) It is better to send men who have had training here & practical experience here rather than fresh men. We may therefore wait for some 2 or 3 years.

(22) I believe there are one or two young men from Mysore who are studying in England on their own account (eg Son of Dr SS Krishnaswamy Iyer & a grandson of Mr Ananda Pandit) & if these get through their course with credit & return, we can see whether we can employ them with advantage

OFFICE OF INSPECTOR GENERAL OF EDUCATION IN MYSORE

D 4484

No 9644 / 492 Edn

Bangalore 30th January *191* 4

From Rao Bahadur
M SHAMA RAO Esq MA
Inspector General of Education in Mysore

To
C S Balasundaram Iyer Esq B A
Secretary to the Government of
His Highness the Maharaja of Mysore
Departments of Education & Agriculture
Bangalore

SIR

With reference to Government Order No 6610-12/Edn 18-13-18 dated 2nd January 1914 sanctioning six additional Engineering scholarships of Rs 30/- per mensem tenable at the Poona College of Engineering for three years from 1st January 1914 I have the honour to state that from a perusal of letter No 2209 dated 12th December 1913 from the Principal College of Engineering Poona submitted with this office letter No 7638/392 of the 17th December 1913 it will be seen that no new students from Mysore can get admission this year into the Poona Engineering College The scholarships sanctioned by Government should either be given to students that are already studying in the Poona College or be withheld altogether

In this connection I enclose a copy of D O No 50 dated 29th instant received from the Chief Engineer wherein he states that he is in favour of giving the scholarships to students that are already in the College

I request therefore that Government may be pleased to pass early orders regarding the award of these scholarships

I have the honour to be
Sir
Your most obedient servant
M Shama Rao
Inspector General

TNR

D O No 50 dated 29th January 1914 from the Chief Engineer of Mysore to the Inspector General of Education in Mysore

---

Your D O letter No 632 dated the 22nd January 1914

From a casual conversation which Mr Karpur Shrinivasrav had with the Dewan it appears that the scholarships are intended to be granted to new students and not to those who are already in the College You have recommended all the 6 scholarshps to students who are already in the College Before this office can take any further steps in the matter on your D O letter it would be desirable that definite orders of the Dewan should be obtained

I may add that the Mysore students who are already in the Madras and Poona Engineering Colleges will no doubt seek employment in Mysore and they will meet the immediate demands of this Department before the new students now to be selected are able to complete their 3 or 4 years' course If scholarships as advertised have to be at all granted, I am willing to support the proposals already made by you The Dewan may be informed of this aspect of the question I write this in consultation with Mr Shrinivasrav

The register of application received with your letter is herewith returned

D O 981

OFFICE OF THE INSPECTOR GENERAL OF EDUCATION
IN MYSORE

Edn 18-13

Bangalore 15th APRIL 1914

My dear Mr Rajagopal

Your D O No 9027/Edn of the 3rd instant regarding the selection of two Mechanical or Civil Engineering students for undergoing training in England From the enclosed reply and its enclosure of the Chief - - - Engineer to my letter addressed to him on the subject he seems to have given his opinion already and is not in favour of fresh students being selected while at present none of the Engineer-officers can be spared If it is the intention of Government that fresh students may be selected I shall do so in consultation with the Chief Engineer and submit their names

Yours sincerely

D O No 168 dated 9th April 1914 from Mr K Krishna Iyengar Offg Chief Engineer of Mysore to the Inspector-General of Education in Mysore

---

Your kind D O letter No 946 dated the 7th instant re the selection of 2 students for studying Mechanical and Civil Engineering in England If it is the intention of Government to send to England students fresh from their class rooms I am sorry I cannot support the proposal Unless a graduate puts in 2 or 3 years' service in the Public Works Department he cannot be considered eligible for undergoing further technical training in foreign countries

As regards the Engineer Officers already in service I think it is a very good idea We want some more highly trained mechanical and electrical engineers and architects and may send a few of our officers for the purpose Recently a circular order was issued to the officers in the Department to report whether any of them are willing to proceed for foreign training Lists have been received but we have to make a selection of the men most likely to benefit from such study but just at present the Department is depleted by Cauvery Reservoir Works and Railways and we could ill afford to detach any for special training

I enclose a copy of letter addressed to Government in the matter

"C o p y"

Public Works Secretary's Note No D 187 dated the 6th April 1914 to the Dewan of Mysore for information and orders

---

With reference to your orders dated the 6th September 1913 on this office note D No 233 dated the 5th idem I beg to submit herewith a statement giving the names of Engineer officers willing to go abroad for special studies The subject selected by each officer according to his aptitude is also mentioned

2 It will no doubt be of great advantage to the service to have in reserve a few selected officers satisfactorily equipped on different lines as indicated in the statement But there is such a dearth of officers just now that it is utterly impossible to withdraw any one and depute him for foreign training as such a step will prejudicially affect either our special works or the large works in the Districts

3 The scheme may therefore be held in abeyance until the Department is restored to its normal working condition which may be in the course of two or three years Men fresh from the College by whom the service is being recruited at present will have to be trained on works for a year or so before they can be pronounced fit for Sub-Division charges or to be placed in charge of large works In these circumstances I would recommend that the question may not be pressed

---
